

# PIT STOP

## APRIL 2022

### The Official Newsletter of *Empire Sports Car Association*

P.O. BOX 2242, SANTA ROSA, CALIF. 95405

Volume 59-4

ESCA is Going Back to  
In-person/ZOOM Meetings.

**April 5th**

7:00 pm

**Round Table Pizza**

1791 Marlow Rd, Santa Rosa

If you can't make the meeting,  
you can attend by ZOOM.

A link will be sent out with the April Pit Stop.

### **April 9, 2022 Autocross**

This will be the second autocross in the ESCA  
Autocross Series and the last autocross at  
this Ukiah site.

**\$50 dollars for members and \$60 for guests**  
Registration is already open and will  
close on Thursday, April 7.

### **ESCA Dues Are Now Past Due**

### **New Autocross Helmet Requirement**

Autocross helmets **MUST** be  
Snell Approved **2010** or Newer for all events.

### **Save the Date**

**For ESCA's first Tour of 2022**

**Saturday, May 7, 2022**

A short tour to Sturgeon's Mill

<http://www.sturgeonsmill.com/>

Information, Views, and Mission Statement

## From the Cockpit

By Bruce Bentz

*Correction:* In my last article I mistakenly attributed the February autocross course design to John Castellano when in truth it was laid out by Charley Sawyer. Thanks Charley!

A few scenes from our February autocross:

### *Percussive Maintenance*

Setting up the computer and timers requires some snake charming skills to get all the cords plugged into the right sockets. We're running late, we need to get this setup going as fast as possible because we're holding up the parade. All plugged in, connections verified, time to turn on the power. Bweeeet!

The power inverter to keep the computer fed conks out. What to do? Steve Rossiter gets a couple of fuse pullers but the damn thing is built with no clearance around the fuses to pull them out. Let's try using the fuse checker to measure the fuse using the little tiny prongs that stick out on the top of the fuse. What, you can't read the fuse checker in the sunlight? How do you jam the tester onto those tiny pins? Time is ticking by and now a crowd is starting to form around the trailer. A mild panic starts to seep into our plans. Maybe we can drive over to Harbor Freight and buy a new one? Well, we only need power to keep the computer running. We could run as long as possible and then call it quits, you know this is just a fun run and we won't record times for the last runs. Wait! John Castellano pulls up with a Simpson voltmeter, a rock solid meter that looks like it's from World War 2 that's the size of an overnight case to test the fuses. Two hot seconds later we look over and Wheeeet the inverter is working just fine. John gave the inverter a solid whack on the side of the head and it came to its senses. Glory, glory, the day has been saved! I get enough whacks on the side of the head I should have thought of that. Or maybe that's the reason why I didn't.

### *Ride Along with Rick Moranis*

Isaac Hastings invited me for a ride along in his super Miata. I was pretty excited to hop in the passenger seat only to find that I couldn't twist my body enough to get my helmet in

the cabin! Bonk, bonk, #\$(\*)&\*#(\* bonk! I admit that I do have a large size helmet, but it's all the better to fit my big conceited head. I had to jump out, lean backwards and get my head in first. To all the Spaceballs fans out there, Isaac yelled out "Good going there, Dark Helmet!"

**April meetings** will be hybrid meetings. We will be meeting at Round Table Pizza on Marlow unless someone out there can find us a better venue. If you don't like Round Table, find us a new place!

As always you can reach out to me at [blbentz@yahoo.com](mailto:blbentz@yahoo.com)

## HAPPY APRIL BIRTHDAYS....

## Ukiah Fun Run Autocross 2-26-22

By Charley Sawyer

Hello **ESCA**n's! Happy 2022 (belated, yes, I know)! We had a fun run Autocross event at the Ukiah site to break in the new season and help shake the rust off from the winter break. Trying to take advantage of the clear weather we've been having; it was still very cold in the morning of the 26<sup>th</sup>! Everyone came out with their same helpful mentality and braved the chilly weather to help setup and run the event.

The course had some last-minute changes to the design which in the end made it a fun longer course, and I think helped get as much seat time for our drivers.

We had some guests from the Mendocino College Automotive Club who took some photos and were very excited to see what **ESCA** was putting on. They were very impressed with how we ran the event, and hopefully we will see them join the club!

Our last event at the Ukiah site located on Honorary Member Ross Liberty's property will occur on April 9<sup>th</sup>! Please be sure to come out to help send off this unique property that has

been a rewarding experience learning how to use the site. We have enjoyed three years of running at Ross's location, which has provided a place to continue our hobby and enjoyment of **ESCA** company through these challenging times.

Please be sure to thank Ross if you happen to bump into him.

See you soon!

## POTA

By John Castellano

Circuit Of The Americas is a 20 turn, 3.4 mile Grand Prix road course in Austin Tx. When the NASCAR Cup guys ran at COTA for the first time last year, I noticed that the triangular outline of the track was similar to the paddock area we use at Sonoma Raceway. Hmmmmmm. On Google Maps, the satellite view of COTA clearly shows the rubber laid on the track. You can put your cursor right at the corner apex, on the racing line, and read off the latitude and longitude. So I loaded all twenty turns into a spreadsheet, shrank it, moved it to Sonoma, and rotated it into position. Voila! Paddock Of The Americas was born. I had it all figured out. A 1/8 scale version of the original.

Did I mention that NASCAR got to use their new rain tires at the inaugural event? I remembered that two weeks before our event, when the weatherman started threatening rain on OUR parade. Would I have to shrink the course further? Would it be too tight? Paranoia Of The Americas had set in. I used my spreadsheet to see how tight the turns were, and how far between gates. Oops, it turns out that 1/8 scale is too small for full size cars. My car can't even get close to a 14' radius turn! And 30' between gates is too close. Oh no! I had to simplify the course.

What are the chances that a day of rain forecasted two weeks out would actually happen? In a megadrought? Well as

it got closer, and I realized that it was a points event, with no cancellations...now it was Panic Of the Americas. I'm used to being responsible for everybody's good time, but making a safe course which was fun, fast, and not-too-tight was stressful! Marisa and I went down Friday so we could set up in the dry. That's when we got another surprise—a fence across the end of the paddock. I had to shorten the main straight about 100'. PITA of a POTA!

The pavement at Sonoma has a nice smooth surface, and brand new tires also have a smooth surface. Just add water and you get "Pushes Of The Americas". Things started to dry out by the fourth run of the first group, but for me...no grip. I think everyone was feeling a sense of urgency to get a clean dry run. Showers came and went, but in the end everyone got to run on a dry track. It was still hard to get a good clean run. The course took under 40 seconds, and had only 20 cones, but it was hard to not screw up. So easy to blow right past your apex. The side-entry slalom was a new twist I hope people enjoyed.

Guy Southern took TTOD in the Vette. Ben Bettega was a second behind on street tires. Steve Rossiter was .027 sec back on new Hoosiers. Brent Werder powered to a fourth overall, and Craig Hammond rounded out the top five. Mike McCrory

and I had an epic battle for 6th, and Mike Prescott pulled a rabbit out on his last run, his 2013 Mustang beating Charley Sawyer's '66 Mustang by 1/2 second for eighth. Isaac Hastings was nipping on his heels in ninth, and Eric Siedentopf drove a long way to do a sub-36 second lap for tenth.

Out of the 41 drivers, **ESCA** took the entire top half of the field. Nice Job! Thanks to Ace Robey for providing the venue and safety checks. Blain Hendrix too, for his safety tweaks. The Autocross Crew for getting the trailer, and the whole **ESCA** team. Perhaps the course was merely inspired by COTA, but fun was had, nobody got too wet, and we put on a good show for the lucky Japanese car show participants.

## Thirty Years Ago in Pit Stop April 1992

By Bob Jenkins

On the cover was a column entitled **MCTD** by Ted Dunlap in which he talked about the up coming April **ESCA** events, the **Annual April Fools Rallye** and a club autocross. Also on the cover was an ad by Hawleys Paint Store.

A **Scenic Dinner Tour** article by Bob Jenkins talked about the 28 people who signed up for dinner at the William Tell in Tomales. There was a tour from Santa Rosa that took a round about way and some of the people went straight out from home, but all enjoyed a great evening of good food with friends.

A full page **ESCA** event calendar listed 16 events from April through December and included rallyes, autocross, Concours, the Sports Car Olympics, and parties.

An **Adopt an Expert – May 17<sup>th</sup>** article by Ted Dunlap suggested members looking for experience at running rallyes, contact Bob Jenkins or Ted Dunlap and they would hook them up with an expert rallyists and then they would run the May 17<sup>th</sup> May Flowers rallye in Fremont. Also on this page was an ad for Temptations by Terry, Cakes for all Occasions, by Terry O'Connor.

A **Club Autocross** article by Justin Bowen reminded members of the April club autocross.

A **Porsche/ESCA Autocross** article by Scott Torgerson talked about the 44-driver autocross hosted by the Redwood Region Porsche Club at the airport. The **ESCA** driver's results showed Scott Torgerson in a 240Z in first, followed by Dale Hartman in a Corvette, Gary Bayless in a Porsche 912, Justin Bowen in a 240Z, and Blain Hendrix in a Corvette in 5<sup>th</sup>.

There was a full -page entry form for the California Capri Club (N.A.S.A.) for a Laguna Seca Drivers School in May.

There was a full-page flyer for **ESCA's Shift and Drift OPEN** autocross at the Sonoma County Airport, which listed 6 classes

*Continued in [next column](#)*

with awards in all classes from The Tire Shop, Benedetti Tires, J T's Auto supplies, Jordan's Auto Parts, Johnny Franklins, J & D Automotive, Big O Tires, and Westwind Data Systems.

The 1992 **ESCA** Board was listed as Chairman Ted Dunlap, Vice Chairman Gary O'Connor, Secretary Curt Askim, Treasurer Neal Campbell, and Ex-Officio Bob Jenkins. The autocross committee head was Justin Bowen and the Concours committee head was Marty Nygaard.

## ESCA Member Profiles Wanted

Let your fellow **ESCA** members get to know you better! We're asking all members who would like to write a short profile about themselves and their car(s) to send it in.

You can write about the things you have done to your car, the **ESCA** events you like to attend, when you joined **ESCA**, and/or your hobbies other than **ESCA**.

Please hold your article to no more than one page.

Also include a picture of yourself and your car and send to the **Pit Stop** editor at:

**[thebeard@sonic.net](mailto:thebeard@sonic.net)**

## For Sale

Asking \$2,000

1992 Alfa Romeo 164L, 5 Speed manual – 187,000 miles.

Car is in good Condition – Cosmetic issues include the clear coat peeling off, and some dents.

For more information email Paul

at [pauljosep13@gmail.com](mailto:pauljosep13@gmail.com)

Otherwise, this car runs great. I just drove to Paso Robles and back. Car is in Graton.
