Amped Up

By Stephanie Brazell

Hello everyone,

I'm pleased to introduce myself as your 2026 chairman. For those who haven't yet connected the name with a face, I'm the loud, blondish driver of a Polestar 2.

I joined the club about 8–9 years ago with my husband, Chris (you may know him by his Red Miata RF). When we meet new people, we tend to remember their cars first and gradually learn the names that go with them—it's part of the fun of being in this community.

Growing up in a large family in a small house, my first car was my very first "own space." It was where I could be free, loud, and unapologetically myself. I never really grew out of that phase. I loved that Honda—it felt like it could run forever on twenty bucks of gas.

These days, I don't have quite as much to escape from, but I still take the scenic routes whenever I can. We're lucky to live near incredible roads that wind through the redwoods, along the coast, and up into the mountains.

My hope for this year is that we'll enjoy some fantastic tours together—opportunities to explore those roads, appreciate the landscapes we sometimes take for granted, and strengthen the connections that make this club so special. I look forward to meeting more of you and getting to know your cars.

Stephanie on course.

ESCA End of Year Banquet Meeting December 7, 2025

By the Beard

It was a foggy, foggy morning as 30 ESCA members and guests began arriving in their sports type vehicles at the parking lot of Cattlemens Restaurant in Rohnert Park. The restaurant was dressed up in holiday lights and a Christmas tree. Marci and helpers soon were busy putting out candy canes and raffle tickets at each place setting, while people were greeting old friends and making new ones and the TOYS FOR KIDS table began to fill up. After a table rearrangement we were ready for the meeting and the food.

Robert Hayes opened the meeting and welcomed everyone. The Treasurer John Schlieman stated the treasury was better

off than a year ago. Bob Jenkins stated we had 3 successful, fun tours, and the CHRISTMAS LIGHTS tour was still to come. Autocross Chairman Craig Hammond gave out the first place T-Shirts and the second and third place trophies and pictures were taken. It was noted that this year was the first time a husband and wife had won a championship T-Shirt in the same year. Blain Hendrix once again installed the new officers, Stephanie Brazell Chairperson, Charley Sawyer Vice Chairman, Secretary Marci Jenkins, Treasurer John Schliemann, Ex-Officio Bob Jenkins and he took pictures of the Board. It was also noted that Stephanie was the 4th lady to be Chairperson of ESCA, the first being Nancy (Voepel) Hastings, followed by Martha (Wendt) Cirati and then Marci Jenkins. Next out going

Chairman Robert Hayes was presented with a gift of a large photo of him autocrossing. Then came more talking and the gathering of the toys to take to the fire department, and the paying of the bill of course.

A four-car tour from the restaurant carrying the toys with Chris and Stephanie Brazell leading the way in their Mazda Maita headed up to Santa Rosa to the main Santa Rosa Fire Department on Sonoma Avenue, where after a little effort we got a fireman to open one of the big doors so we could get

pictures in front of a fire truck.

Mission accomplished.

And so ended another fun banquet.

And, the sun was now out.

Holiday Lights Tour Recap

Rohnert Park. While Circle Drive lived up to its reputation, we discovered plenty of other dazzling displays that made the detour worthwhile.

We wrapped up the tour at the sculpture garden between the Luther Burbank Center and Sutter's medical office building. This permanent installation was dressed up beautifully for the holidays, offering a colorful and festive experience. They call it "The Northern Lights" winter walk. Unfortunately, the rain picked up just as we arrived, but if you haven't visited this spot, it's worth the trip! The garden changes every year, and this season's vibrant colors were even better than my last visit.

Special thanks to Chuck and Lori Banks—this tour was a remix of one they organized a while back. Their previous legwork made planning this year's route so much more manageable, and we truly appreciate their help in making

this event a success.

Wishing everyone a joyful holiday season filled with warmth, laughter, and plenty of twinkling lights!

Trip To Carr's

By Bob Jenkins

On a foggy Monday morning Johnny Schliemann arrived at my house to pick me up for a run to Carr's Drive In in Forestville for the weekly Monday morning meet of old Hot Rods.

Because it was only a few days before Thanksgiving the turning out was lighter than usual.

There were still over twenty cars to check out while we had a light lunch when Carr's opened at 11:00am. Johnny said usually the lot is full with about 50 cars and lasts from before 11 to 12:30 or so. Check it out if you have an empty Monday morning.

A Woody's Road to Pomona, Part 2

By Gary O'Connor

The initial excitement of getting in 'The Big Show' is over, now the work begins. When I look at that old heap I realize that the last time any chassis painting occurred was in the mid 80's! Any visible components will have to be repaired and then repainted. Stone chips and scratches are plentiful after 60K miles and even though it's parked in its own sealed garage surface rust is a constant irritant.

The next problem was how to get the car down to LA since I can't drive it. A 1700 pound car and 1500 pound rental trailer is right at my car's max towing limit. Throw in going over the Grapevine and that idea's out. Renting a truck AND trailer became prohibitively expensive quickly, however, renting a 12 foot box truck, while still pricey, is doable. Its the 'dollar nine a mile' that gets ya on a thousand mile trip! The box also protects the car from weather and prying eyes.

Now I have to get the car onto the truck's 33 inch high floor. I think two sets of reinforced Harbor Freight ramps will provide sufficient, if narrow, paths for the tires. I'll do a partial test with the '32 pickup before spending too much time fabbing. Wish me luck!

I'm still waiting on two new cylinders before I can assemble the engine and put on the newly painted cooling tins and chrome. (fingers tapping impatiently). My buddy John Andres is doing the painting and another talented friend, Paul Marquez, will be lettering the plaque for the show setup.

None of these projects is insurmountable but time ticks away. I just need to stay vigilant and plug away.
